## SprintPro Models & Kit Selection Table

# Standard Features & Sensors Full colour display IR printer compatible

IR printer compatible			
Bluetooth compatibility for IOS and Android			
O <sub>2</sub> Flue gas measurement			
CO Flue gas measurement			
NOx flue gas measurement			

#### Tests and Functions

CO, sensor measurement (ambient and room test only)

Flue gas analysis: CO, CO <sub>2</sub> (calculated), CO/CO <sub>2</sub> , ratio, O <sub>2</sub> (measured), NO & NOx (where sensor fitted), XS air, temperature and efficiency			
Let-by/tightness test			
Draught/differential pressure measurement with timer			
Operating/working pressure report			
Differential temperature measurement (flow and return)			
Room safety test CO and CO <sub>2</sub> (where sensor fitted)			
Ambient room test CO and CO <sub>2</sub> (where sensor fitted)			
Gas Escape Probe Menu Function			

### Accessories Included

Flue probe with thermocouple, in-line filter and water trap			
Carry case			
1 off 1 m Pressure hose for use with natural gas			
Printed quick start guide with url for downloading the full product manual			
Sprint Pro software, USB connection for report and log management			
Gas Escape Probe (GEP) with flexible swan-neck and LED
